# OUR STORY

At Wunderkraf Paperware, we're on a mission to transform the way you dine, one eco-friendly tableware product at a time. Our journey began with a passion for sustainability and a commitment to reducing our environmental footprint. We take immense pride in crafting high-quality paper tableware from responsibly sourced materials, which not only exude elegance but also minimize harm to our precious planet.

Wunderkraf Paperware was born from a shared commitment to sustainability and a desire to make a positive impact on the environment. As creators of exceptional paper cutlery, we set out on a journey to provide an eco-friendly alternative to traditional plastic utensils. Our story is one of innovation, craftsmanship, and dedication to reducing single-use plastic waste. With a passion for preserving nature and a love for design, we've crafted a range of elegant, sturdy, and compostable paper cutlery that not only enhances your dining experience but also helps protect our planet. Join us on our mission to make every meal a sustainable choice with Wunderkraf Paperware."

Sustainability

# it's more than *a lifestyle*

The UN defines 17 Sustainable Development Goals that were agreed to by over 190 countries to focus on things like pollution, famine, poverty, and climate change. At Wunderkraf we only focus on ONE goal. That is to reinvent how merchants respond to the growing demand for to-go convenience.

Sustainability is more than a lifestyle task. It is a "wicked problem" which requires collaborative efforts from a large group of brain trust including the community, investors, consumers, supply chain service providers, and manufacturers. Wunderkraf is trying to be part of it by applying creative solutions to transform this challenge to a new business opportunity

# ECO-FRIENDLY CUTLERY FOR A *Greener Future.*

# What We Make?

At Wunderkraf Paperware, we specialize in crafting innovative paper cutlery designed with greater depth and capacity. We've set out to solve a common problem in disposable tableware - the limited depth of conventional cutlery. Our unique designs offer a practical solution, allowing you to enjoy your meals without compromise.

Our paper cutlery stands out for its enhanced depth, providing you with a more comfortable and functional dining experience. Whether you're savoring a hearty salad or indulging in a creamy dessert, our cutlery can handle it with ease. We take pride in combining sustainability with convenience, and our products are a testament to our dedication to making environmentally responsible choices accessible to everyone. Discover the difference of depth with Wunderkraf Paperware - where your dining experience meets sustainability, one bite at a time.

# Who We Are?

Wunderkraf Paperware is a company driven by a profound commitment to sustainable solutions, with a specific focus on paper cutlery. We're more than just a business; we're advocates for a greener, more eco-conscious world. Our journey began with a vision to revolutionize the dining experience by offering an environmentally responsible alternative to plastic utensils.

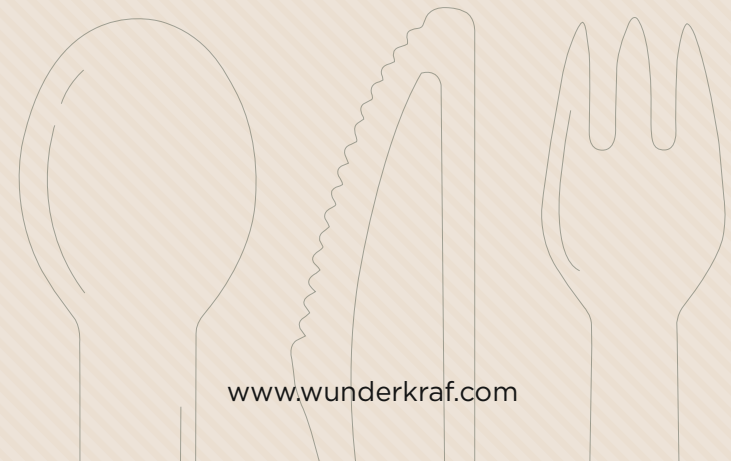

At our core, we are dedicated to crafting premium paper cutlery that not only showcases exquisite design and functionality but also aligns with our mission to reduce plastic waste. We believe in the power of small changes to make a big impact, and through our sustainable products, we aim to inspire mindful choices in everyday dining.

Join us in embracing the future of dining with Wunderkraf Paperware - where sustainability meets style, and where every meal becomes an opportunity to protect our planet.

### LOGO DEBOSSED

# Why Paper Cutlery?

Cutlery typically features a greater depth when compared to wooden cutlery. With an average depth of approximately 1 to 2 millimeters, paper utensils offer 5 to 7 millimeters and a deeper profile. This added depth can be advantageous for scooping up foods or handling saucier dishes, providing more capacity than their wooden cutlery. The extra depth in paper cutlery enhances usability, especially for meals that require a more generous serving capacity.

## PAPER CUTLERY

- ✔ No chemicals are used during the manufacturing process.
- ✔ Paper cutlery has no taste or odour.
- ✔ Due to the smooth surface and nature of the material used, there is no risk of harm when using the product.
- ✔ It only takes 2 to 6 weeks for the product to fully decompose, both home and industrial composting is possible.
- ✔ Paper cutlery is fully recyclable.
- ✔ Paper cutlery can be customized with different colors and prints, and shaped into any form or design.

## WOODEN CUTLERY

- ✔ Exposed to chemicals during the washing and fumigating processes. For bamboo cutlery, abrasive chemicals and dyes are used to get the finished product.
- ✔ Wooden cutlery can contaminate food with its strong odour and oily resins.
- ✔ Wooden cutlery has splinters or cracks, which can potentially cause harm to the user.
- ✔ Wood takes around 3 months to fully decompose and bamboo takes up to 3 years.
- ✔ Wooden cutlery is not recyclable.
- ✔ The options for customization are very limited.

# Paper Cutlery Sets
